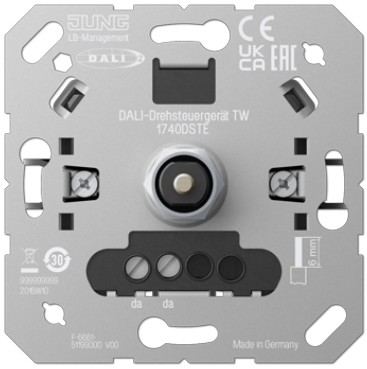
Product data sheet

DALI rotary controller TW



Reference number
1740 DSTE

DALI rotary controller TW

Intended use

- Brightness setting for luminaires with DALI/DALI-2 interface
- Setting of colour temperature for luminaires with DALI Device Type 8 for tunable white acc. to IEC 62386-209
- Installation in flush box according to EN 60670-1

Product characteristics

- The DALI rotary controller TW takes power from the DALI voltage, which must be supplied by an external DALI power supply in accordance with IEC 62386-101.
- Saving of colour temperature limiting values
- Saving of basic brightness and switch-on brightness
- Certified acc. to IEC 62386-101 and -103 (Single Master)
- The device functions as a DALI-2 single master and should not be combined with other DALI controllers.

Technical data

(external DALI power supply acc. to IEC 62386-101 required)

Rated voltage DALI:	DC 16 V (typ.)
Power consumption:	max. 2 W
Ambient temperature:	–5 ... +45 °C
Colour temperature setting:	2,000 ... 10,000 K
